

An Update of Fisheries Activities In *Great Smoky Mountains National Park*

Presented by Matt Kulp & Steve Moore –
Great Smoky Mountain National Park Fishery Biologists

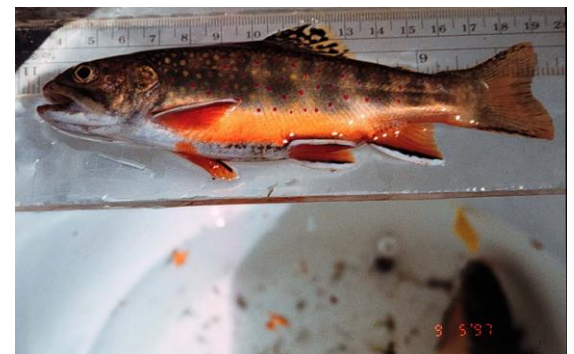

WHEN: Thursday March 3rd, 2011 at 7pm

WHERE: Townsend City Hall
(Old Townsend School Auditorium)

Presentation: Presentation will cover trout biology, Lynn Camp brook trout restoration status & future plans, acid rain update & a general comment/question session.

FREE handouts, reports, and information for the public regarding fish, water quality, brook trout restoration, and other Park issues.

Please come out and hear what's going on with the Park's fish management, some plans for the future, and get an opportunity to ask questions.
